### **3. OBLIGATIONS OF THE CARRIER**

3.1 As refrigeration units are only designed to maintain the temperature of the load, no claims will be considered in accordance with clause 11.7.2 and clause 11.7.3 if the initial temperature of the load was above / below the required temperature.

It is the Customer's responsibility to ensure that their consignment's temperature is in adherence to the industry standard of chilled goods at +4° Celsius and frozen goods at -18° Celsius. LMC Express (Pty) Ltd can accommodate other temperature requests to transport for a Customer as per direct instruction from the Customer, provided a minimum of sixteen (16) pallets are booked. Upon booking other temperature requests, the Customer must at all times discuss if it is in fact possible with the relevant Operations

Managers, Route Schedulers. Product must be specified in the consignment notes of the Booking. It is advisable to book a full truck load for temperatures other than +4° Celsius and -18° Celsius so that no load consolidation will occur. LMC Express (Pty) Ltd do not offer guaranteed storage facilities at our Johannesburg, Cape Town and Durban Branches for temperatures other than +4° Celsius and -18° Celsius.

*The date of product manufacturing plays an important role in that, under pressure, the Customer may produce at short notice and the product cannot be cooled down to the industry standard and will then impact on the temperature of other products on the same pallet and / or on the total load being transported. Various specific temperatures may not be co-loaded / consolidated on one (1) pallet i.e. chilled and dry products as the warmer product will always negatively impact the chilled products.*

Insofar as the Carrier can be held responsible for incorrect temperature of product upon the delivery, it is only applicable if it can be proven that the Carrier was negligent during the period from collection until delivery of the product and that there was a malfunction of the cooling unit in excess of two (2) hours on the refrigerated vehicle and then only a claim may be submitted by the Customer at the cost price of the product value in accordance with clause 10.

3.2 Temperature Sensitive Product: LMC Express' business model is such that the doors of our local collection and delivery vehicles are opened and closed quite often. If your product is too sensitive for these conditions, you must adhere to the following:-

3.2.1 Inform the relevant LMC Express Route Controller in writing, by making this entry on your Online Booking.

3.2.2 Book a minimum of eight (8) pallets, so that a dedicated vehicle can collect / deliver your product. If your eight (8) pallets are a multi-drop and / or multi collection order, LMC Express will not take responsibility for temperature spikes during the collection or delivery process.

If the above provisos are not met, LMC Express will not consider a temperature deterioration claim.

### **4. PRODUCT TEMPERATURE MEASUREMENT**

The only acceptable method of product temperature measurement will be an invasive (destructive) method whereby the product is physically penetrated by the temperature measurement device needle as per the 'REGULATIONS GOVERNING GENERAL HYGIENE

## REQUIREMENTS FOR FOOD PREMISES & THE TRANSPORT OF FOOD (R638)'.

Any other method to ascertain the temperature of the product will not be accepted by the Carrier and no insurance cover shall be available and / or no claim for temperature deterioration will be considered should the above procedure not be followed. The onus is on the Customer, Consignor and Consignee to prove the actual temperature.

No claim for incorrect temperature will be considered in the event that the consignment is collected from an LMC Express Depot and temperature is not checked upon receiving and witnessed by an LMC Express Employee. The onus is on the collecting party to check and verify temperatures at time of collection.

In the event that The Customer selects 'NO TEMPERATURE REQUIRED' as mode of transport on the LMC Express Waybill, no claim for product deterioration will be considered.

### 5. **COSTS AND FEES**

5.1 The Customer shall pay the freight and all other lawful charges accruing on the goods in accordance with the Carrier's Booking Confirmation.

5.2 LMC Express (Pty) Ltd allows one (1) hour for consignments consisting of less than six (6) pallets and / or a half pallet; two (2) hours for consignments exceeding six (6) pallets. Thereafter the Customer shall be liable for payment of standing time of R500.00 (VAT excluded) per hour. Overtime charges may be additional to the standing time charges. The Carrier reserves the right to withdraw its collection and / or delivery vehicle should the Customer exceed the allowed delivery and / or collection time. Re-delivery and / or re-collection charges will be for the account of the Customer at R500.00 per pallet.

Storage charges are applicable from day two (2) and product will automatically be returned to the Customer on day five.

6.2 If any amounts owing by the Customer to the Carrier remain unpaid on the due date set out in the invoice, then all other amounts owing by the Customer to the Carrier, shall become due and payable immediately and

the Carrier shall be entitled, but not obliged (and without prejudice to any of its other rights and remedies in law) by notice in writing to the Customer to suspend performance of any of its obligations under this Agreement until such time as the Customer has rendered payment in full of all outstanding amounts due to the Carrier.

6.3 Customer accounts which exceed their payment terms due dates will be closed after the fourth (4<sup>th</sup>) overdue payment is received. Thereafter all business will be conducted on a 'Cash before Loading' basis (CBL). CBL bookings must be paid online, via the LMC Express (Pty) Ltd booking portal. Failure to do so may lead to delays in collection or delivery as well as cancellation of GIT insurance.

6.4 In the event that a 'Cash before Loading' (CBL) Customer or Cash Customer fails to select that they require label(s) and / or shrink-wrap and / or pallet(s) when making a booking, an additional invoice will be raised for an administration fee of R200.00.

The date of delivery as indicated on the LMC Express (Pty) Ltd Waybill will be considered as day one (1).

7.3 The Customer shall properly and accurately give to the Carrier the name and address of the Customer and all documents that must of necessity accompany the Goods or such documents as the Carrier may require.

7.4 The Carrier shall not be responsible nor incur any liability for any loss or incorrect delivery of goods due to the name and address of the Customer being incorrectly stated by the Customer.

7.5 The Carrier shall not be liable for any loss in the event of delivery being affected to some person other than the Customer, in the event of the Customer, or his agent, not being present to receive and accept delivery of the Goods.

7.6 In the event of the Customer refusing to accept delivery of the Goods in whole or in part, or in the event of the Carrier being unable to effect delivery by reason of the address of the Customer being improperly or inaccurately stated and being compelled to return the Goods to the Customer, then the Customer shall be liable for all reasonable costs incurred in the return of such Goods.

7.7 In the event of the Carrier being compelled to dispose of such Goods by reason of their perishable nature or for whatsoever other reason, the Carrier shall not be liable for any damage to or loss of such goods or any loss or damage arising out of the disposal thereof and the Customer shall be liable to the Carrier for all costs incurred in connection with the disposal of such Goods.

7.8 The Customer warrants the accuracy of all descriptions, values and other particulars furnished to the carrier and indemnifies the Carrier against all claims, losses, penalties, damages, expenses and fines whatsoever arising from any inaccuracy or omission.

The notices and processes include letters reminding the Customer of payments it has missed, letters of demand, a summons and other legal notices. - Delivering the notice to the Carrier by hand

- The consequences of any enquiries made by or from a credit bureau, because of any information provided by the Carrier about the Customer's account. The Carrier endeavours to ensure that all information about the Customer is accurate.

9.8 The parties acknowledge that each clause of this agreement is separate. If any clause of this agreement is or becomes illegal, invalid or unenforceable for any reason or in any jurisdiction, it will be treated as if it had not been written. This does not:

- make the rest of the agreement illegal, invalid or unenforceable
- Affect the legality, validity or enforceability of the clause in another jurisdiction.

9.9 These written terms and conditions are the whole agreement between the Carrier and the Customer. Neither party is legally obliged to comply with any express or implied term, condition, undertaking, representation, warranty, or promise not recorded in this agreement. This agreement replaces any arrangement or understanding held by the parties.

9.10 We do not lose any of our rights under this agreement if we do not immediately and in every instance insist on them. You may not raise it as a defense if we have a right but do not enforce it at the relevant time. - Insurance cover in excess of R150 000.00 per pallet will be approved by the Carrier and cost will be provided.

Customers requiring insurance cover in excess of R150 000.00 per pallet on a consistent basis may inform the Carrier in writing and the Carrier upon validating the request may instruct the insurer to increase the limit in terms of the Customer value.

The Carrier does not insure parcel consignments. Should the Customer require insurance on parcel consignments, the Carrier can at the Customers request officiate insurance at a cost of 10% of the declared cost price value of the Customers parcel consignment.

\*LTL = Consignments of single collection, single delivery, 14 – 16 Pallet Loads and 30 Pallet Loads.

10.3 The Carrier shall not be obliged to insure any goods separately.

10.4 The Carrier does not guarantee that additional insurance will be obtained for the amount requested by the Customer. Please note that additional cover must be requested prior to releasing the consignment to the Carrier.

10.5 To the extent that the Carrier agrees to arrange insurance cover for the Customer, it does so as agent, for and on behalf of the Customer.

10.6 If the Customer wishes to secure its own insurance, it shall advise the Carrier accordingly. Such arrangement must be made at least 24 hours prior to collection. Additional insurance is only available to Customers who have an account with LMC Express (Pty Ltd).

10.7 It shall be the responsibility of the Customer to pack its products onto a pallet. The Customer must ensure that the product is packed to allow sufficient airflow to the product. Failing may cause for a claim to be rejected without any liability to the Carrier.

10.8 The Carrier shall not be liable for any loss, shortage or damage, caused by any circumstance beyond the control of the Carrier.

10.9 The Carrier shall not be liable for any indirect or consequential damages from an incident which occurred whilst the Customers product was in the care of the Carrier.

**Disclaimer of Liability:**

LMC Express (Pty) Ltd shall not accept any liability for any loss, injury and / or damages in the event that a Customer, Consignor and / or Consignee or an employee of the Customer, Consignor and / or Consignee requests that an LMC Express (Pty) Ltd employee operates the Customer, Consignor and / or Consignee's forklift or any other vehicle.

**11. CLAIMS**

Notwithstanding the provisions of clause 10 above, the Customer shall be entitled to **report** damages, shortages, product temperature deviations and product returns as follows:

The Customer is obliged to comply with all the conditions as stated on the relevant document(s) in order to qualify for consideration of a credit request to the Carrier.

On the occasion that the Customer's product is rejected

upon delivery, resulting in product return, the Carrier's insurance cover ceases immediately and no claim will be considered in the event of damages, shortages, temperature deterioration as a result of the returned product.

LMC Express is under no obligation to obtain permission from the Customer (Debtor) to accept Product Returns and to execute the Returns to our Dispatching Depot.

**11.2 Effects of odour:-**

The descriptions from complainants may differ from the discharger, who might be unaffected by working in the odour on a daily basis.

It is preferable to refer to the character of an odour, rather than its 'offensiveness' to avoid confusion between the inherent characteristics of an odour (i.e. whether it is pleasant or unpleasant) and whether there is an 'objectionable or offensive' effect occurring as a result of exposure to odour.

It is the Customers responsibility to inform LMC Express of products they wish to transport which may have an odour that will affect other consignments transported by the Carrier. Certain food types absorb odours i.e. dairy, bakery types of products etc.

**List of odour risk food types:-**

Offal, casings, onions, garlic, animal horns and animal skins etc.

In the event of odour contamination, the Consignor / Debtor will be responsible for any claims which affected other Customer's consignments.

Determining if an odour is offensive or objectionable (and so a breach of consent) is always dependent on all of the FIDOL factors (Frequency, Intensity, Duration, Offensiveness and Location), and proof is required before enforcement action can be taken. For a breach of the condition to occur, this generally requires an assessor officer to validate an odour complaint by determining if the odour was offensive or objectionable in the instance.

11.3 Notice of the loss and damage to any goods carried under the bill of lading, setting out particulars of the origin, destination and date of shipment of the goods and the estimated amount claimed in respect of such loss or damage must be given in writing to the Carrier at the point of delivery or at the point of origin. Endorsement of a potential claim must also be effected

on the Carrier's Proof of Delivery document or its subcontractor's Proof of Delivery Document by the Customer and countersigned by the relevant driver. Any claim against the Carrier for damages to the load will only be considered if the condition of the load is inspected by a representative of the Carrier within twenty-four (24) hours of the damages being detected.

11.4 The maximum insured value of R80 000.00 per one (1) complete pallet applies in the event of the total rejection as a result of a relevant claim. In the event of a partial claim, the total insured value of R80 000.00 does not apply. \*The claim will be subject to a pro rata value of the actual loss incurred and / or will be calculated as a percentage of the maximum insurance cover of R80 000.00 per pallet at the cost price of the product as specified in point 11.4.

11.5 Each claim must consist of a formal credit request, itemizing the damages and / or shortages and / or product returns at its cost price.

11.6 All claims must be reported whilst the Carrier's vehicle is on site. Failure to do so will result in the rejection of the claim.

**11.7 Claims and refunds are at the Carrier's discretion and will only be considered by the Carrier if**

11.7.1 the above procedure has been followed;

11.7.2 the Customer can prove the temperature of the product at the time of loading. (The Customer should follow the procedure as set out in Annexure 1 to obtain the accurate temperature in this regard);

11.7.3 the Consignor / Sender probes a specific sample box / carton, clearly marked as TEMPERATURE SAMPLE BOX and enter this temperature on the LMC Express Waybill. This procedure must be witnessed by a representative of the Carrier or the LMC Express driver upon collection. This box will be deemed the temperature sample box, of which the temperature must be taken upon delivery.

11.7.4 the Customer can prove that the shrink-wrap of the pallet has been tampered with and

11.7.5 the Customer does not request an employee of the Carrier to de-palletize and / or re-pack and / or re-load any product;

11.7.6 the Customer has submitted a completed Booking Request and / or the booking made on the LMC Express (Pty) Ltd Portal prior to the collection of a consignment.

11.8 Good in Transit Insurance Cover is forfeited if the LMC Express (Pty) Ltd Booking Request is not received prior to the collection of a consignment.

11.9 No claims can be offset against any payment owed to the Carrier.

11.10 In the event of a Customer submitting a claim, the value of the load will be based on the cost price of the product.

11.11 The decision of the Carrier's assessor will be binding regarding whether the products are still fit for use.

11.12 All products on which a potential claim is lodged must be kept until the Carrier's assessor agrees to the release thereof.

11.13 In the case of a hijacking, if there was any involvement of any representatives of the Customer, the Carrier has the right not to consider such a claim
